ENGINES

YD25DDTi DOHC Direct Injection
Intercooled Turbo Diesel Engine

Displacement: 2488cc
Max. Power: 98kW/3600rpm
Max. Torque: 304Nm/2000rpm

KA24DE DOHC Gasoline Engine

Displacement: 2389cc
Max. Power: 105kW/5600rpm
Max. Torque: 205Nm/3600rpm

QD32 Diesel Engine

Displacement: 3153cc
Max. Power: 76kW/3600rpm
Max. Torque: 216Nm/2000rpm

TD27 Diesel Engine

Displacement: 2663cc
Max. Power: 64kW/4300rpm
Max. Torque: 178Nm/2200rpm

STANDARD FEATURES LIST

- Power steering
- Height adjustable steering wheel tilt
- Lockable glove box
- Carpet floor cover
- Side impact protection, door guard bar
- 5-speed manual

Every effort has been made to ensure that the content is correct at the time of going to print (February 2012). This leaflet has been produced featuring prototype or accessorised vehicles and, in accordance with the company's policy of continuously improving its products, Nissan reserves the right to change the specification and the vehicles described at any time. Nissan dealers will be informed of any such modifications as quickly as possible. Please check with your local Nissan dealer to receive the most up-to-date information. Due to the limitations of the printing processes used, the colours shown may differ slightly from the actual colours of the paint and interior trim materials used. All rights reserved. Reproduction in whole or part of this leaflet without the written permission from Nissan is forbidden.

Optional equipment can result in an increase/decrease in the unladen weight and consequently affect the payload. Quoted payloads have been determined to allow for factory options or aftermarket solutions that are not accommodated in the standard delivery and services scope. The calculation of the actual payload of a vehicle is the difference between the gross vehicle mass and the curb mass and can only be determined by weighing the vehicle. Due to production tolerances/tyre sizes/type of running gear, the actual dimensions can differ slightly from the figures supplied in this leaflet.
